Dear Parents / Carers,

On the 10th June Year 10 students will be participating in a Vocational Education (VET) Taster Day at the South Coast Trades Skills Centre. The purpose of the day is to give NAC students an opportunity to explore and experience each of the College’s VET offerings, some of which are offered on the Bomaderry campus and others on the Milton Campus.

The College has established transport links between the two campuses which are providing senior students with the opportunity to pursue a range of HSC VET subjects, which significantly expands our subject offerings for senior students, and at a fraction of the cost of studying at TAFE. The majority of our VET subjects are Industry Curriculum Framework (ICF) courses and as a result, can be used toward the calculation of an ATAR.

Students need to create a timetable for the day from the VET offerings below and will have the opportunity to engage with teachers and current students during 20 minute rotations.

**Date:** Wednesday 10th June 2015  
**Departure time:** Depart the College at 8:45am  
**Return Time:** Student will return to NAC by 12:15pm  
**What to wear:** Sports uniform  
**What to bring:** Morning tea and water bottle

Yours sincerely,

Mr David Hamaty  
Head of School  
Nowra Anglican College

Mr Tim Knowles  
Head of School  
Shoalhaven Anglican School
