*We believe that children are born with a desire to learn and to make sense of the world around them. We recognise and value each child as competent capable individuals. Our vision is to be an innovative facilitator of meaningful and respectful early learning for children and their families.*

We provide secure, nurturing and stimulating Early Childhood environments where:

**Children are:**

- Active participants in the learning process,
- Valued Highly,
- Encouraged to enquire and question,
- Constantly reflecting and self-assessing,
- Extended in their own and others interest areas,
- Given opportunities to explore and experiment.

**Educators are:**

- Facilitators in the learning process,
- Active learners alongside the children,
- Encouraging children to discover and retrace their learning,
- Constantly reflecting on the best practice and self-evaluation, and
- Flexible in their planning

**Families are:**

- Encouraged to take an active role,
- Advocates for their children's learning,
- Partners and collaborators,
- Encouraged to share their knowledge, skills and interests, and
- Valued for their contributions to the learning process.

**Environments are:**

- Used to help extend learning
- Used to encourage self-discovery, and
- Interactive, dynamic fun.
